Online safety (including mobile phones and cameras)

Policy statement

We take steps to ensure that there are effective procedures in place to protect children, young people and vulnerable adults from the unacceptable use of Information Communication Technology (ICT) equipment or exposure to inappropriate materials in the setting.

Our nursery is aware of the growth of internet and the advantages this can bring. However, it is also aware of the dangers it can pose and we strive to support children, staff and families to use the internet safely.

We refer to *'Safeguarding children and protecting professionals in early years settings: online safety considerations'* to support this policy.

Procedures

Within the nursery we aim to keep children, staff and parents safe online. Our safety measures include:

- Ensuring we have appropriate antivirus and anti-spyware software on all devices and update them regularly
- Ensuring content blockers and filters are on all our devices, e.g. computers, laptops, tablets and any mobile devices
- Ensuring all devices are password protected and screen locks. Practitioners are reminded to use complex strong passwords and they are kept safe and secure, changed regularly and are not written down
- Monitoring all internet usage across the setting
- Providing secure storage of all nursery devices at the end of each day
- Ensuring no social media or messaging apps are installed on nursery devices
- Reviewing all apps or games downloaded onto devices ensuring they are age and content appropriate
- Using only nursery devices to record/photograph children in the setting
- Never emailing personal or financial information
- Reporting emails with inappropriate content to the internet watch foundation (IWF www.iwf.org.uk)
- Teaching children how to stay safe online and report any concerns they have
- Ensuring children are supervised when using internet connected devices
- Using tracking software to monitor suitability of internet usage (for older children)
- Not permitting staff or visitors to access to the nursery Wi-Fi
- Talking to children about 'stranger danger' and deciding who is a stranger and who is not; comparing people in real life situations to online 'friends'
- When using Skype and FaceTime (where applicable) discussing with the children what they would do if someone they did not know tried to contact them
- Providing training for staff, at least annually, in online safety and understanding how to keep children safe online. We encourage staff and families to complete an online safety briefing, which can be found at https://moodle.ndna.org.uk
- Staff model safe practice when using technology with children and ensuring all staff abide by an acceptable use policy; instructing staff to use the work IT equipment for matters relating to the children and their education and care. No personal use will be tolerated (see acceptable IT use policy)
- Monitoring children's screen time to ensure they remain safe online and have access to material that promotes their development. We ensure that their screen time is within an acceptable level and is integrated within their programme of learning
- Making sure physical safety of users is considered including the posture of staff and children when using devices
- Being aware of the need to manage our digital reputation, including the appropriateness of information and content that we post online, both professionally and personally. This is continually monitored by the setting's management

- Ensuring all electronic communications between staff and parents is professional and takes place via the official nursery communication channels, e.g. the setting's email addresses and telephone numbers. This is to protect staff, children and parents
- Signposting parents to appropriate sources of support regarding online safety at home

If any concerns arise relating to online safety, then we will follow our safeguarding policy and report all online safety concerns to the DSL.

- Our designated person (manager/deputy) responsible for co-ordinating action taken to protect children is: Nabeela Bhaiji/Faheema Ali

Information Communication Technology (ICT) equipment

- Only ICT equipment belonging to the setting is used by staff and children.
- The designated person is responsible for ensuring all ICT equipment is safe and fit for purpose.
- All computers have virus protection installed.
- The designated person ensures that safety settings are set to ensure that inappropriate material cannot be accessed.

Internet access

- Children do not normally have access to the internet and never have unsupervised access.
- If staff access the internet with children for the purposes of promoting their learning, written permission is gained from parents who are shown this policy.
- The designated person has overall responsibility for ensuring that children and young people are safeguarded and risk assessments in relation to online safety are completed.
- Children are taught the following stay safe principles in an age appropriate way prior to using the internet;
- only go on line with a grown up
- be kind on line
- keep information about me safely
- only press buttons on the internet to things I understand
- tell a grown up if something makes me unhappy on the internet
- Designated persons will also seek to build children's resilience in relation to issues they may face in the online world, and will address issues such as staying safe, having appropriate friendships, asking for help if unsure, not keeping secrets as part of social and emotional development in age appropriate ways.
- If a second hand computer is purchased or donated to the setting, the designated person will ensure that no inappropriate material is stored on it before children use it.
- All computers for use by children are located in an area clearly visible to staff.
- Children are not allowed to access social networking sites.
- Staff report any suspicious or offensive material, including material which may incite racism, bullying or discrimination to the Internet Watch Foundation at www.iwf.org.uk.

- Suspicions that an adult is attempting to make inappropriate contact with a child on-line is reported to the National Crime Agency's Child Exploitation and Online Protection Centre at www.ceop.police.uk**.**
- The designated person ensures staff have access to age-appropriate resources to enable them to assist children to use the internet safely.
- If staff become aware that a child is the victim of cyber-bullying, they discuss this with their parents and refer them to sources of help, such as the NSPCC on 0808 800 5000 or www.nspcc.org.uk, or Childline on 0800 1111 or www.childline.org.uk.

Email

- Children are not permitted to use email in the setting. Parents and staff are not normally permitted to use setting equipment to access personal emails.
- Staff do not access personal or work email whilst supervising children.
- Staff send personal information by encrypted email and share information securely at all times.

Mobile phones – children

- Children do not bring mobile phones or other ICT devices with them to the setting. If a child is found to have a mobile phone or ICT device with them, this is removed and stored in [lockers or a locked drawer] until the parent collects them at the end of the session.

Mobile phones – staff and visitors

- Personal mobile phones are not used by my staff on the premises during working hours. They will be stored in the safe box located in the office.
- In an emergency, personal mobile phones may be used in an area where there are no children present, with permission from the manager.
- Our staff and volunteers ensure that the setting telephone number is known to family and other people who may need to contact them in an emergency.
- If members of staff or volunteers take their mobile phones on outings, for use in case of an emergency, they must not make or receive personal calls, or take photographs of children.
- Parents and visitors are requested not to use their mobile phones whilst on the premises. We make an exception if a visitor's company or organisation operates a lone working policy that requires contact with their office periodically throughout the day. Visitors will be advised of a quiet space where they can use their mobile phone, where no children are present.
- These rules also apply to the use of work-issued mobiles, and when visiting or supporting staff in other settings.

Cameras and videos

- Our staff and volunteers must not bring their personal cameras or video recording equipment into the setting.

- Photographs and recordings of children are only taken for valid reasons i.e. to record their learning and development, or for displays within the setting, with written permission received by parents (see the Registration form). Such use is monitored by the manager.
- Where parents request permission to photograph or record their own children at special events, general permission is gained from all parents for their children to be included. Parents are advised that they do not have a right to photograph anyone else's child or to upload photos of anyone else's children.
- If photographs of children are used for publicity purposes, parental consent must be given and safeguarding risks minimised, for example, ensuring children cannot be identified by name or through being photographed in a sweatshirt with the name of their setting on it.

Social media

- Staff are advised to manage their personal security settings to ensure that their information is only available to people they choose to share information with.
- Staff should not accept service users, children and parents as friends due to it being a breach of expected professional conduct.
- In the event that staff name the organisation or workplace in any social media they do so in a way that is not detrimental to the organisation or its service users.
- Staff observe confidentiality and refrain from discussing any issues relating to work
- Staff should not share information they would not want children, parents or colleagues to view.
- Staff should report any concerns or breaches to the designated person in their setting.
- Staff avoid personal communication, including on social networking sites, with the children and parents with whom they act in a professional capacity. If a practitioner and family are friendly prior to the child coming into the setting, this information is shared with the manager prior to a child attending and a risk assessment and agreement in relation to boundaries is agreed.

Electronic learning journals for recording children's progress

- Managers seek permission from the senior management team prior to using any online learning journal. A risk assessment is completed with details on how the learning journal is managed to ensure children are safeguarded.
- Staff adhere to the guidance provided with the system at all times.

Use and/or distribution of inappropriate images

- Staff are aware that it is an offence to distribute indecent images. In the event of a concern that a colleague or other person is behaving inappropriately, the Safeguarding Children and Child Protection policy, in relation to allegations against staff and/or responding to suspicions of abuse, is followed
- Staff are aware that grooming children and young people on line is an offence in its own right and concerns about a colleague's or others' behaviour are reported (as above).

Cyber Security

This policy should be read in conjunction with your Data protection and Confidentiality Policy, Acceptable IT Use Policy and GDPR Privacy statement.

Good cyber security means protecting the personal or sensitive information we hold on children and their families in line with the Data Protection Act. We are aware that Cyber criminals will target any type of business including childcare and ensure all staff are aware of the value of the information we hold in terms of criminal activity e.g. scam emails. All staff are reminded to follow all the procedures above including backing up sensitive data, using strong passwords and protecting devices to ensure we are cyber secure.

To prevent any attempts of a data breach (which is when information held by a business is stolen or accessed without authorisation) that could cause temporary shutdown of our setting and reputational damage with the families we engage with we inform staff not to open any suspicious messages such as official-sounding messages about 'resetting passwords', 'receiving compensation', 'scanning devices' or 'missed deliveries'.

Staff are asked to report these to the manager as soon as possible and these will be reported through the NCSC Suspicious Email Reporting Service at report@phishing.gov.uk
