

Nursery Closure

In the event of severe snow and the safety of children at risk, the nursery will be shut for the day. The nursery manager will liaise with the senior director Dr Khalid and decide whether nursery will be closed for the day. The nursery manager will need to find out which staff members are available to attend nursery before a decision is made. Dr Khalid will make the final decision on this matter.

The nursery manager will then inform parents via email and direct text message through the nursery mobile number as soon as a decision is made.
